Introduction

Under the direction of the Federal Housing Finance Agency (FHFA), Fannie Mae and Freddie Mac (the GSEs) have developed the Uniform Mortgage Data Program® (UMDP®) to enhance the accuracy and quality of loan data delivered to each GSE. The Uniform Appraisal Dataset (UAD) is a key component of the UMDP, which defines all fields required for an appraisal submission for specific appraisal forms and standardizes definitions and responses for a key subset of fields.

For conventional loans delivered to the GSEs on or after March 19, 2012 (and with application dates on or after December 1, 2011), Fannie Mae and Freddie Mac will require appraisals to be completed using the field-specific standardization requirements. Appraisal software forms providers will incorporate the UAD field-specific standardization requirements into their appraisal report form software. The appraisal data must conform to the UAD and be delivered through the Uniform Collateral Data Portal® (UCDP®), the joint portal through which lenders will submit electronic appraisal reports for delivery to Fannie Mae or Freddie Mac. The UAD and UCDP will help lenders, the GSEs, and other industry participants manage collateral risk through efficient collection and enhanced quality of appraisal data.

With the UAD, the GSEs will require that appraisals be completed with standardized responses in certain appraisal form fields. The standardization of certain data points will support consistent appraisal reporting, regardless of geographic location of the property or any localized reporting conventions, by addressing vague or disparate data currently included on some appraisal reports. The UAD standardized response requirements include:

- Standardized formats for fields that include dates, currency, and other values
- Allowable values from a list of choices provided for certain fields
- Standardized abbreviations to allow more information to fit on the printed appraisal forms
- Standardized ratings and definitions for the “Condition,” and “Quality,” of the property and “Updated/Remodeled” status

The UAD supports improved quality and accuracy of the appraisal data while preserving each GSE’s ability to determine how the data relates to loan performance and loan quality. The GSEs will each continue to exercise independent business judgment in evaluating and maintaining business terms, credit policies, and analytics. Differences in the assessment and use of the appraisal data will remain due to unique and separate business policies, mortgage products, and processes.

Purpose and Overview

This document provides field-specific standardization requirements for completing the GSEs’ residential appraisal report forms listed in the table below (the appraisal forms). It lists the requirements for the data that must be included in specific fields and how the data should be formatted. These requirements are in addition to the GSEs’ appraisal-related policies and guidelines, which are subject to change and are identified in Fannie Mae’s *Selling Guide* and Freddie Mac’s *Single-Family Seller/Service Guide*.

It is important to Fannie Mae and Freddie Mac that appraisals are conducted and communicated accurately and effectively. The UAD was developed with that in mind and none of the UAD requirements inhibit or limit appraisers’ responsibility to comply with the Uniform Standards of Professional Appraisal Practice (USPAP). As with all appraisal report forms, there is no limitation on appraisers’ ability to present additional information in the appraisal report or an addendum to the appraisal report form. Appraisal reports must include any and all information necessary to accurately and completely describe the subject property. Conforming to the UAD does not replace appraisers’ development and reporting responsibilities as required by the Uniform Standards of Professional Appraisal Practice (USPAP).

The UAD will apply to the following most commonly used residential appraisal report forms (Fannie Mae / Freddie Mac form numbers), which represent the vast majority of appraisals supporting loans delivered to the GSEs:

Appraisal Form Name	Fannie Mae Form Number	Freddie Mac Form Number
Uniform Residential Appraisal Report	1004	70
Individual Condominium Unit Appraisal Report	1073	465
Exterior-Only Inspection Individual Condominium Appraisal Report	1075	466
Exterior-Only Inspection Residential Appraisal Report	2055	2055

Appraisals must comply with all field-specific standardization requirements in this document. To assist appraisers in meeting UAD requirements, the GSEs are working with appraisal forms vendors to incorporate the UAD requirements into the software appraisers use to complete appraisal reports.

The requirements for completion of the UAD forms are organized in the order in which they appear on the appraisal form. Information is organized in a table format and contains the form field label(s), a description of the requirement, the corresponding appraisal forms to which it applies, and a reporting format. "Reporting format" defines the standardized format for entering data on the appraisal forms.

The "Requirement or Instruction" column defines the data specifications of the UCDP. For form fields labeled as a requirement, the UCDP will validate the data and will return an error message if the data does not conform to the defined reporting format. In the initial implementation of the UCDP, error messages will appear as warnings; in the future some error messages will transition to fatal errors. For form fields labeled as an instruction, UCDP will not validate the reporting format but the data must be transmitted if populated in the form by the appraiser.

This document is not intended as a sole quality review tool for appraisal reports. Compliance with the UAD and UCDP specifications does not relieve lenders of their responsibility to meet the GSEs' appraisal related policies and guidelines.

The GSEs may extend the UAD and the standardized responses to the other appraisal forms at a later date. Please refer to Fannie Mae's *Selling Guide* and Freddie Mac's *Single-Family Seller/Service Guide* regarding requirements for additional appraisal forms required to be submitted to UCDP.

Field-Specific Standardization Requirements

Subject Section	Forms	Requirement or Instruction
<p>Property Address, City, State, ZIP Code</p> <p>The appraiser must enter the physical property address in a format that conforms to the United States Postal Service (USPS) address standards in Publication 28 – Postal Addressing Standards (pub28) for complete addresses. Address standards can be found at USPS.gov. The subject address must be populated consistently throughout the form.</p> <p>The following address elements must be included in these fields:</p> <ul style="list-style-type: none"> ▪ Street number ▪ Street name (including pre-directional indicator, suffix, post-directional indicator, and unit number when applicable) ▪ City ▪ USPS two-letter state or territory representation ▪ 5-digit ZIP Code or ZIP+4 code (either with or without the dash) <p>Reporting Format: Property Address – Text City – Text State – 2-letter USPS abbreviation ZIP Code – 5-digit ZIP Code or ZIP+4 code (either with or without the dash)</p>	1004/70 2055/2055 1073/465 1075/466	REQUIREMENT
<p>Unit #</p> <p>The appraiser must enter the address unit number/designator.</p> <p>During the appraisal process if an appraiser determines that a unit number is not available for a property known to be a condominium, the appraiser must put a “-” in the unit number field. The “-” symbolizes that the appraiser has researched the property address and was unable to identify a unit number for the given condominium unit. This is only likely to be necessary in a limited number of instances. This format option is allowable for both the subject property and the comparable properties. The address and unit number must be provided consistently for the subject property throughout the appraisal.</p> <p>Reporting Format: Unit # – Text</p>	1073/465 1075/466	REQUIREMENT
<p>County</p> <p>The appraiser should enter the name of the county in which the subject property is located. If the subject property is not located in any county (e.g., the subject property is located in an independent city), enter the name of the local municipality or district in which the property is located.</p> <p>Reporting Format: County – Text</p>	1004/70 2055/2055 1073/465 1075/466	INSTRUCTION
<p>Assessor’s Parcel #</p> <p>The appraiser should enter any available assessor’s parcel number(s) that would further identify the subject parcel/property. The parcel number(s) should be in the same format used by the taxing agency, including all spaces and dashes as applicable. If no parcel number is available, enter ‘None’.</p> <p>Reporting Format: Assessor’s Parcel Number – Text The appraiser should separate multiple parcel numbers with a semicolon.</p>	1004/70 2055/2055 1073/465 1075/466	INSTRUCTION

Field-Specific Standardization Requirements

Subject Section	Forms	Requirement or Instruction
<p>Tax Year, Real Estate Taxes \$</p> <p>The appraiser should enter the tax year. If the tax year spans two calendar years, the appraiser should enter the first year only.</p> <p>The appraiser should report the amount of taxes payable on the subject property, expressed as an annual or annualized amount. If real estate taxes are payable to more than one entity, the appraiser should enter the annualized sum of all real estate taxes (not including special assessments). Additional information about tax year(s) or tax amount(s) may be provided elsewhere in the appraisal report.</p> <p>Reporting Format: Tax Year – 4 digit year, yyyy Real Estate Taxes – Currency, whole dollars only</p>	1004/70 2055/2055 1073/465 1075/466	INSTRUCTION
<p>Neighborhood Name</p> <p>The appraiser should enter a neighborhood name. It may be a name recognized by the municipality in which the property is sited, such as a subdivision name. If there is not a neighborhood name recognized by the municipality, enter the common name by which residents refer to the location.</p> <p>Reporting Format: Neighborhood Name – Text</p>	1004/70 2055/2055	INSTRUCTION
<p>Project Name</p> <p>The appraiser must enter the legal name of the project for the subject property and each comparable property.</p> <p>Reporting Format: Project Name – Text</p>	1073/465 1075/466	REQUIREMENT
<p>Occupant</p> <p>The appraiser must indicate whether the subject property is occupied by the owner or a tenant, or is vacant as of the effective date of the appraisal. Only one selection is permitted. For properties that are comprised of one unit with an accessory unit, the selection must reflect the occupancy status of the main unit. Additional information regarding the occupancy of any accessory unit may be provided elsewhere in the appraisal report.</p> <p>Reporting Format: Occupant – Checkbox designated with an ‘x’</p>	1004/70 2055/2055 1073/465 1075/466	REQUIREMENT
<p>Special Assessments \$</p> <p>The appraiser should enter any special assessment applicable to the subject property. It must be expressed as an annual or annualized amount. If there is more than one special assessment, enter the annualized sum of all special assessments. If there are no special assessments applicable to the subject property, enter the numeral zero (0). Additional information about special assessments may be provided elsewhere in the appraisal report.</p> <p>Reporting Format: Special Assessments \$ – Currency, whole dollars only</p>	1004/70 2055/2055 1073/465 1075/466	INSTRUCTION

Field-Specific Standardization Requirements

Subject Section	Forms	Requirement or Instruction
<p>PUD (Indicator)</p> <p>The appraiser must indicate if the property is located in a Planned Unit Development (PUD). If the checkbox is indicated, the appraiser must select ‘Yes’ or ‘No’ in response to the question, “Is the developer/builder in control of the Homeowners’ Association (HOA)?” located in the PUD Information section.</p> <p>Reporting Format: PUD (Indicator) – Checkbox designated with an ‘x’</p>	<p>1004/70 2055/2055</p>	<p>REQUIREMENT</p>
<p>HOA \$, Per Year, Per Month</p> <p>The appraiser must enter all applicable homeowners’ association (HOA) fees associated with the subject property. Additionally, the appraiser must select the appropriate checkbox to indicate if the amount is payable per year or per month. Only one selection is permitted. If the amount is paid on a different frequency (e.g., bi-monthly or semi-annually), it must be normalized as either per year or per month for reporting.</p> <p>If there are multiple fees assessed, such as for a HOA and a master association, the appraiser must first convert the fees to the appropriate frequency (if necessary) and then report the total of all fees in this data field. For instance, if the property is subject to a monthly HOA fee and a quarterly master association fee, the quarterly fee must be converted to a monthly fee and added to the monthly HOA fee.</p> <p>If there are no HOA fees applicable to the subject property, enter the numeral zero (0).</p> <p>Additional information about HOA fees, frequency of payment(s), etc. may be provided elsewhere in the appraisal report or an addendum if necessary.</p> <p><i>Note: For appraisals of condominium units, the amount of any applicable condominium association fees must be included in the HOA fees section.</i></p> <p>Reporting Format: HOA \$ – Currency, whole dollars only Per Year, Per Month – Checkbox designated with an ‘x’</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>
<p>Assignment Type</p> <p>The appraiser must indicate the transaction type for the assignment – Purchase, Refinance, or Other. Only one selection is permitted. If ‘Other’ is selected, a description must be provided.</p> <p>Reporting Format: Assignment Type – Checkbox designated with an ‘x’ Description of ‘Other’ (if applicable) – Text</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>
<p>Lender/Client</p> <p>The appraiser must enter the name of the lender. Any applicable AMC name should only be entered in the Appraiser Certification Section.</p> <p>Reporting Format: Lender/Client – Text</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>

Is the subject property currently offered for sale or has it been offered for sale in the 12 months prior to the effective date of this appraisal? Report data source(s) used, offering price(s), and date(s).

1004/70
2055/2055
1073/465
1075/466

REQUIREMENT

The appraiser must identify whether the subject property is currently offered for sale or has been offered for sale in the twelve months prior to the date of the appraisal by selecting either the ‘Yes’ or the ‘No’ checkbox.

Reporting Format:

Is the subject property currently offered for sale or has it been offered for sale in the 12 months prior to the effective date of this appraisal? – Checkbox designated with an ‘x’

If the answer is ‘No,’ the data source(s) used must be provided. If the answer is ‘Yes,’ the following information is required:

- Days on Market (DOM) – The appraiser must enter the DOM for the subject property. DOM is defined as the total number of continuous days from the date that a property is listed or advertised for sale through the date that it is taken off the market or contracted for sale. DOM applies not only to properties that are listed in a Multiple Listing Service (MLS), but also applies to properties marketed for sale outside MLS. If the subject property was not individually listed or advertised for sale, enter the numeral zero (0). If the DOM is unknown, enter ‘Unk’.
- Offering Price(s) – The appraiser must report the original offering price and a history of price changes, if any.
- Offering Date(s) – The appraiser must report the date(s) that the property was offered for sale.
- Data Source(s) Used – The appraiser must report the data source(s) used to obtain the offering information. If the data source is MLS, the appraiser must enter the abbreviated MLS organization name, followed by a pound sign (#), and the specific listing identifier.

If the subject property was offered For Sale by Owner (FSBO) or otherwise marketed for sale outside of MLS, the appraiser must report the original offering price, history of price changes, if any, and the date(s) the property was offered for sale, etc., to the extent that this information is known or available to the appraiser in the normal course of business. The appraiser may report any other relevant information regarding the length of time that the subject property was offered for sale, including cumulative days on market, in this field or elsewhere in the appraisal report.

Reporting Format:

DOM – Numeric to 4 digits, whole numbers only or ‘Unk’

Text – Include the following three items:

Offering Price(s) – Currency, whole dollars only

Offering Date(s) – mm/dd/yyyy

Data Source(s) Used – Abbreviated MLS#Listing Identifier or Text

The PDF creator (the software that creates the PDF) will automatically insert a semicolon to separate DOM from other data values. The PDF creator will also insert “DOM”.

Examples (if Yes):

DOM 150;Subject property was offered for sale on 03/01/2010 for \$200,000. The data source is MRIS#12345AB.

DOMUnk;Subject property was listed for sale by owner for \$200,000. The data source is a public source.

Example (if No):

MRIS MLS

Contract Section	Forms	Requirement or Instruction								
<p>I did/did not analyze the contract for sale for the subject purchase transaction.</p> <p>The appraiser must indicate whether analysis was performed on the contract for sale.</p> <p>Reporting Format: I did/did not analyze the contract for sale for the subject purchase transaction. – Checkbox designated with an ‘x’</p> <p>The appraiser must also indicate the type of sale for this transaction from the list of available choices. The appraiser must start at the top of the list and select the first sale type that applies. Only one selection is permitted. The valid sale types are as follows:</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th align="center">SALE TYPE</th> </tr> </thead> <tbody> <tr><td>REO sale</td></tr> <tr><td>Short sale</td></tr> <tr><td>Court ordered sale</td></tr> <tr><td>Estate sale</td></tr> <tr><td>Relocation sale</td></tr> <tr><td>Non-arms length sale</td></tr> <tr><td>Arms length sale</td></tr> </tbody> </table> <p>After selecting a valid sale type, enter an explanation of the results of the analysis of the contract or why the analysis was not performed. The appraiser may report any other relevant information regarding the sale type, including whether more than one sale type applies, in this field or elsewhere in the appraisal report.</p> <p>Reporting Format: Sale Type – Appraiser must select one value from the specified list Description of Analysis – Text The PDF creator will automatically insert a semicolon to separate the data values.</p> <p>Example: Arms length sale;Text of the appraiser analysis of the sales contract</p>	SALE TYPE	REO sale	Short sale	Court ordered sale	Estate sale	Relocation sale	Non-arms length sale	Arms length sale	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>
SALE TYPE										
REO sale

Field-Specific Standardization Requirements

Contract Section	Forms	Requirement or Instruction
<p>Is the property seller the owner of public record?</p> <p>The appraiser must indicate ‘Yes’ or ‘No’ if the “Assignment Type” is a purchase transaction.</p> <p>Reporting Format: Is the property seller the owner of public record? – Checkbox designated with an ‘x’</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>
<p>Is there any financial assistance (loan charges, sale concessions, gift or down payment assistance, etc.) to be paid by any party on behalf of the borrower?</p> <p>The appraiser must indicate ‘Yes’ or ‘No’ if the “Assignment Type” is a purchase transaction.</p> <p>If ‘No’ is selected, enter the numeral zero (0) in the dollar amount field.</p> <p>Reporting Format: Is there any financial assistance (loan charges, sale concessions, gift or down payment assistance, etc.) to be paid by any party on behalf of the borrower? – Checkbox designated with an ‘x’</p> <p>If ‘Yes’ is selected, enter the total dollar amount of all financial assistance (loan charges, sale concessions, gift or down payment assistance, etc.) paid by any party on behalf of the borrower, including any closing costs or other payments from the seller or other third party. If the appraiser is not able to determine a dollar amount for all or part of the financial assistance, the number must reflect the total known dollar amount. Leave this field blank if the entire financial assistance amount is unknown. If there is any unknown financial assistance amount, the text ‘There is a financial assistance amount that is unknown’ will appear in this field. Next, the appraiser must provide a description of the items being paid.</p> <p>Reporting Format: Total Financial Assistance – Currency, whole dollars only (if applicable) Description of Analysis of Financial Assistance – Text The PDF creator will automatically insert a semicolon to separate the data values.</p> <p>Examples: \$5000;There is a financial assistance amount that is unknown.;Down payment assistance, plus furniture of unknown value. \$5000;;Down payment assistance.</p> <p><i>Note: Financial assistance or concessions paid by any party on behalf of the borrower include both monetary and non-monetary items, including below-market-rate mortgage financing, gifts of personal property, payment of property taxes and/or HOA dues for a period of time, etc.</i></p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>

Neighborhood Section	Forms	Requirement or Instruction
<p>One-Unit Housing Trends</p> <p>Property Values The appraiser must indicate whether property values for one-unit housing in the subject’s neighborhood are increasing, stable, or declining. Only one selection is permitted.</p> <p>Demand/Supply The appraiser must indicate whether the demand/supply of one-unit housing in the subject property’s neighborhood is in shortage, in balance, or over supply. Only one selection is permitted.</p> <p>Marketing Time The appraiser must indicate whether the marketing time for one-unit housing is under 3 mths, 3–6 mths, or over 6 mths. Only one selection is permitted.</p> <p>Reporting Format: Property Values – Checkbox designated with an ‘x’ Demand/Supply – Checkbox designated with an ‘x’ Marketing Time – Checkbox designated with an ‘x’</p>	<p>1004/70 2055/2055</p>	<p>REQUIREMENT</p>
<p>Condominium Unit Housing Trends</p> <p>Property Values The appraiser must indicate whether property values for condominium unit housing in the subject’s neighborhood are increasing, stable, or declining. Only one selection is permitted.</p> <p>Demand/Supply The appraiser must indicate whether the demand/supply of condominium unit housing in the subject property’s neighborhood is in shortage, in balance, or over supply. Only one selection is permitted.</p> <p>Marketing Time The appraiser must indicate whether the marketing time for condominium unit housing is under 3 mths, 3–6 mths, or over 6 mths. Only one selection is permitted.</p> <p>Reporting Format: Property Values – Checkbox designated with an ‘x’ Demand/Supply – Checkbox designated with an ‘x’ Marketing Time – Checkbox designated with an ‘x’</p>	<p>1073/465 1075/466</p>	<p>REQUIREMENT</p>
<p>Neighborhood Boundaries</p> <p>The appraiser should provide an outline of the neighborhood boundaries, which should be clearly delineated using ‘North’, ‘South’, ‘East’, and ‘West’. These boundaries may include but are not limited to streets, legally recognized neighborhood boundaries, waterways, or other natural boundaries that define the separation of one neighborhood from another. Appraisers should not reference a map or other addendum as the only example of the neighborhood boundaries.</p> <p>Reporting Format: Description of Neighborhood Boundaries – Text</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>INSTRUCTION</p>

Field-Specific Standardization Requirements

Site Section	Forms	Requirement or Instruction																																				
<p>Area</p> <p>For sites/parcels that have an area of less than one acre, the size must be reported in square feet. For sites/parcels that have an area of one acre or greater, the size must be reported in acreage to two decimal places. The unit of measure must be indicated as either ‘sf’ for square feet or ‘ac’ for acres. A numeric value must be entered followed by the appropriate unit of measure. The total size of the entire site/parcel must be entered. No other data is permitted.</p> <p>Reporting Format: Area less than one acre – whole numbers only + unit of measure Area equal to one acre or more – numeric to 2 decimals + unit of measure</p> <p>Examples: 27840 sf 3.40 ac</p>	1004/70 2055/2055	REQUIREMENT																																				
<p>View</p> <p>The appraiser must provide one of the ratings from the list below to describe the overall effect on value and marketability of the view factors associated with the subject property.</p> <table border="1"> <thead> <tr> <th align="center">ABBREVIATED ENTRY</th> <th align="center">OVERALL VIEW RATING</th> </tr> </thead> <tbody> <tr> <td align="center">N</td> <td align="center">Neutral</td> </tr> <tr> <td align="center">B</td> <td align="center">Beneficial</td> </tr> <tr> <td align="center">A</td> <td align="center">Adverse</td> </tr> </tbody> </table> <p>The appraiser must also provide at least one, but not more than two, view factor(s) from the list below to provide details about the overall view rating selected above.</p> <table border="1"> <thead> <tr> <th align="center">ABBREVIATED ENTRY</th> <th align="center">VIEW FACTOR</th> </tr> </thead> <tbody> <tr> <td align="center">Wtr</td> <td align="center">Water View</td> </tr> <tr> <td align="center">Pstrl</td> <td align="center">Pastoral View</td> </tr> <tr> <td align="center">Woods</td> <td align="center">Woods View</td> </tr> <tr> <td align="center">Prk</td> <td align="center">Park View</td> </tr> <tr> <td align="center">Glfw</td> <td align="center">Golf Course View</td> </tr> <tr> <td align="center">CtySky</td> <td align="center">City View Skyline View</td> </tr> <tr> <td align="center">Mtn</td> <td align="center">Mountain View</td> </tr> <tr> <td align="center">Res</td> <td align="center">Residential View</td> </tr> <tr> <td align="center">CtyStr</td> <td align="center">City Street View</td> </tr> <tr> <td align="center">Ind</td> <td align="center">Industrial View</td> </tr> <tr> <td align="center">PwrLn</td> <td align="center">Power Lines</td> </tr> <tr> <td align="center">LtdSght</td> <td align="center">Limited Sight</td> </tr> <tr> <td align="center"><i>See Instruction Below</i></td> <td align="center">Other – Appraiser to enter a description of the view*</td> </tr> </tbody> </table> <p>*Other: If a view factor not on this list materially affects the value of the subject property, the appraiser must enter a description of the view associated with the property (see second example below). The description entered must allow a reader of the appraisal report to understand what the view associated with the property actually is. Descriptors such as ‘None’, ‘N/A’, ‘Typical’, ‘Average’, etc., are unacceptable. Descriptions should be entered carefully because the same text will be represented in both the Site section and the comparable sales grid for the subject property. The text must fit in the allowable space. Any additional information may be reported elsewhere in the appraisal report.</p>	ABBREVIATED ENTRY	OVERALL VIEW RATING	N	Neutral	B	Beneficial	A	Adverse	ABBREVIATED ENTRY	VIEW FACTOR	Wtr	Water View	Pstrl	Pastoral View	Woods	Woods View	Prk	Park View	Glfw	Golf Course View	CtySky	City View Skyline View	Mtn	Mountain View	Res	Residential View	CtyStr	City Street View	Ind	Industrial View	PwrLn	Power Lines	LtdSght	Limited Sight	<i>See Instruction Below</i>	Other – Appraiser to enter a description of the view*	1004/70 2055/2055 1073/465 1075/466	REQUIREMENT

Field-Specific Standardization Requirements

‘N/A’, ‘Typical’, ‘Average’, etc., are unacceptable. The text must fit in the allowable space. Any additional information necessary to communicate an appraisal in a manner that is meaningful and not misleading may be reported elsewhere in the appraisal report.

Note, the UAD does not limit the number of different view factors associated with a property that may be reported within the appraisal report. If there are more than two view factors, an appraiser may choose “other” and then enter a text description of the multiple view factors to the extent that the description fits within the space on the appraisal form. Any additional information that does not fit in the allowable space may be reported elsewhere in the appraisal report.

Reporting Format:

View Rating – Appraiser must select one value from the specified list
 View Factors – Appraiser must select one or two factors from the specified list
 Description of ‘Other’ (if applicable) – Text
 The PDF creator will automatically insert a semicolon to separate the data values.

Example:

B;Mtn;Wtr
 A;RRtracks [example of appraiser-entered ‘Other’ description]

Refer to the complete list of acceptable abbreviations provided at the end of this document in Exhibit 3: Requirements – Abbreviations Used in Data Standardization Text.

Quality of Construction

The appraiser must select one quality rating from the list below for the subject property and each comparable property. The appraiser must indicate the quality rating that best describes the overall quality of the property. Only one selection is permitted. The quality rating for the subject property must describe the overall quality of the property as-of the effective date of the appraisal and the overall quality of each comparable property as-of the date of sale for the comparable properties on an absolute basis, not on a relative basis or how the properties relate to other properties in the neighborhood.

- Q1
- Q2
- Q3
- Q4
- Q5
- Q6

The definitions for the quality ratings are provided in Exhibit 1.

Reporting Format:

REQUIREMENT

Field-Specific Standardization Requirements

Actual Age		REQUIREMENT
<p>The appraiser must report the actual age of the subject property and each comparable property. For new construction that is less than one year old, enter the numeral zero (0). Do not enter any additional information such as ‘years’ or other descriptors. If the actual age is unknown, enter the estimated age.</p> <p>Reporting Format: Actual Age – Numeric to 3-digits, whole numbers only Estimation of Actual Age – A tilde (~) must precede the actual age</p> <p>Examples: 18 ~150 (The PDF creator will insert the tilde.)</p>	1004/70 2055/2055 1073/465 1075/466	

Field-Specific Standardization Requirements

<p>Condition</p> <p>The appraiser must select the overall condition rating for the subject property and each comparable property from the below list. The overall condition rating for the subject property must match the overall condition rating that was reported in the Improvements section so that it is consistent throughout the appraisal report. Only one selection is permitted. The condition rating for the subject property must describe the physical condition of the property as-of the effective date of the appraisal and the physical condition of each comparable property as-of the date of sale for the comparable properties on an absolute basis, not on a relative basis or how the properties relate to other properties in the neighborhood.</p> <ul style="list-style-type: none"> ▪ C1 ▪ C2 ▪ C3 ▪ C4 ▪ C5 ▪ C6 <p>The definitions for these condition ratings are provided in Exhibit 1: Requirements – Condition and Quality Ratings Usage.</p> <p>Reporting Format: Condition Rating – Appraiser must select one value from the specified list</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>
<p>Above Grade Room Count, Gross Living Area</p> <p>The appraiser must enter the total number of rooms as well as the number of bedrooms and bathrooms for the subject property and each comparable property. The appraiser must also enter the gross living area for the subject property and each comparable property. The appraiser must follow the same standards outlined in the Improvements section under “Finished Area Above Grade” and “Square Feet of Gross Living Area Above Grade.”</p> <p>Reporting Format: # of Rooms – Numeric to 2 digits, whole numbers only # of Bedrooms – Numeric to 2 digits, whole numbers only # of Bath(s) – Numeric to 2 decimal places Separate full bath count from half bath count with a period (.), nn.nn Gross Living Area – Numeric to 5 digits, whole numbers only</p> <p>Example: 3.2 indicates three full baths and two half baths above grade.</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>
<p>Basement & Finished Rooms Below Grade</p> <p>Line 1 The appraiser must report:</p> <ul style="list-style-type: none"> ▪ Total square footage of the property improvements below grade – If there is no basement, enter the numeral zero (0). No other information may be entered. ▪ Finished square footage of the property improvements below grade, if applicable. Do not indicate a percent finished. ▪ The type of access to the basement, if applicable. The allowable values are ‘Walk-out’ (wo), ‘Walk-up’ (wu), or ‘Interior only’ (in), which must be abbreviated on the appraisal report form to fit in the available space. <p>In some jurisdictions, the total square footage of the property improvements below grade and/or the finished square footage of the property improvements below grade may not be available to the appraiser within the normal course of business. In such cases, an appraiser may report the estimated total square footage of the property improvements below grade and the finished area below grade for the comparable properties and disclose within the appraisal report that the size is an estimate and report the source and basis for the estimate.</p>	<p>1004/70 2055/2055 1073/465 1075/466</p>	<p>REQUIREMENT</p>

Field-Specific Standardization Requirements

Line 2

The appraiser must report the number of each type of finished rooms in the basement on Line 2 of this data field if the finished square footage of the basement is greater than zero. The room type descriptors are:

ABBREVIATED ENTRY	ROOM TYPE
rr	Recreation Room
br	Bedroom
ba	Bathroom
o	Other

The appraiser must enter the numeral zero (0) if there are no rooms of a particular type. If the finished square footage of the basement is zero, no entries should be made for the basement room type counts.

Reporting Format:

Line 1: Total Square Footage – Numeric to 5 digits, whole numbers only

Line 1: Finished Square Footage – Numeric to 5 digits, whole numbers only

Line 1: Basement Access – Appraiser must select one value from the specified list (values wo, wu, or in)

The PDF creator will automatically insert the text ‘sf’ to separate the data values.

Line 2: Room Count/Type – Numeric to 1 digit*

*For bathrooms, the format is n.n – full baths separated from half baths with a period (.).

The PDF creator will automatically insert the room type abbreviations to separate the data values.

Examples:

Line 1: 1000sf750sfwu

Line 2: 1rr1br1.0ba2o

Energy Efficient Items

The appraiser must enter any energy efficient items for the subject property and each comparable property. If there are no energy efficient items, enter ‘None’.

Reporting Format:

Energy Efficient Items – Text

Exhibit 1: Requirements – Condition and Quality Ratings Usage

Appraisers must utilize the following standardized condition and quality ratings within the appraisal report.

Condition Ratings and Definitions

C1: The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2: The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3: The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4: The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5: The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability are somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6: The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Exhibit 2: Requirements – Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is ‘Not Updated’ may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do *not* include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.
